

Dataset

This folder contains the data for the take-home assignment.

Files

`appearances.csv` — 3,590 rows. The main dataset. Each row is one lawyer appearance in one Supreme Court hearing.

Column	Description
<code>appearance_id</code>	Unique ID for this row (1 to 3531)
<code>raw_name</code>	Lawyer name as it appears in the document (NOISY)
<code>designation_raw</code>	Designation as recorded (Advocate / AOR / Senior Advocate, with formatting variation)
<code>case_id</code>	Groups appearances by case. Rows sharing a <code>case_id</code> are co-counsel in the same hearing.
<code>hearing_date</code>	ISO date
<code>appearing_for</code>	Petitioner, Respondent, Union of India, State, Intervenor, Applicant

`aor_master.csv` — 60 rows. Official Advocates-on-Record registry. Authoritative for AOR name spelling. Note that not every name in the registry necessarily appears in `appearances.csv`.

Column	Description
<code>aor_id</code>	Unique ID
<code>full_name</code>	Official name
<code>registration_date</code>	When they became an AOR
<code>city</code>	Registered city

`sr_advocate_master.csv` — 17 rows. Supreme Court Senior Advocate registry. **INCOMPLETE BY DESIGN** — Senior Advocates designated by High Courts are not on this list. Absence from this list does NOT mean "not a Senior."

Column	Description
<code>sr_id</code>	Unique ID
<code>full_name</code>	Official name
<code>designation_date</code>	When they were designated Senior

Notes on the data

- Date range: 2018-01-01 to 2025-12-31
- Cases per row average: 1,153 cases / 3,590 appearances $\approx$ 3.1 lawyers per case
- Designation strings have formatting variation: `"Advocate"`, `"Adv."`, `"AOR"`, `"A.O.R."`, `"Advocate on Record"`, `"Sr. Adv."`, etc. Cleaning these is part of the problem.
- The data is derived from real Supreme Court records with realistic noise patterns. Names of public figures (e.g., well-known Senior Advocates) may appear and are treated like any other lawyer.
- Some lawyers appear once. Some appear 50+ times.
- Some lawyers' careers span the full date range; others appear only in a narrow window.
